

STANDARD SERIES D3052KS Walk-In Tub

The American Tubs' **D3052KS** from our Standard Series represents an updated twist on the more traditional walk-in tub design. With its 38¾" high tub basin, the D3052KS offers an increased bathing depth while maintaining a compact footprint for small bathrooms. Its overall size and 22½" seat makes the D3052KS the perfect size for narrow bathrooms, while being large enough to accommodate individuals between 120-230lbs.

The innovative curved door design, affectionately called the "knee saver" design, makes closing the door from a seated position much simpler, while its 20" door width provides ample entry space for larger individuals. This newer rendition of the D3052KS has overtaken other traditional models as one of our top sellers.
